

Mid-Atlantic Diesel Collaborative
Steering Committee Role
(July 25, 2006)

The Mid-Atlantic Diesel Collaborative Steering Committee is responsible for the overall policy direction and program management of the Collaborative.

The Steering Committee will:

- Adopt goals and strategies for the Collaborative.
- Support, lead, and promote diesel emission reduction projects to improve air quality and public health;
- Promote education about diesel emission reduction technologies, programs and projects;
- Market the Collaborative to secure funding and grow participation; and
- Form workgroups as needed and oversee their activities.
